Mercado de Productores, a wonderful farmer's market at Madrid's very own "El Matadero"

A new farmer's market is in town and it's called [Mercado de Productores](#). Selling local produce from gardens and farms surrounding the city, this market is held on the last weekend of every month at [El Matadero Madrid](#), a former slaughterhouse turned cultural center (one of our favorite spots in the city). After browsing through stands selling freshly picked produce, we recommend you then take a nice walk along Madrid Río.
